

## **AQUIFER EDUCATOR CONNECTION PODCAST**

### **Episode 23: Debriefing Aquifer Cases: Templates for Dynamic Discussions**

Guest: Kelsey Dougherty, MMSc, PA-C is Assistant Professor, Pediatrics – Child Health Associate/Physician Assistant Program (CHA/PA) at the University of Colorado School of Medicine

Host: Lynne Robins, PhD, Professor Emerita, Department of Biomedical Informatics and Medical Education, University of Washington School of Medicine, Seattle, WA.

Description: In this episode, Kelsey Dougherty outlines the benefits of using a debriefing template to achieve program learning objectives by ensuring that all small group faculty highlight key concepts in class discussions. She emphasizes that the template is highly adaptable for use in all health professions educational programs and that it allows for creativity within a standardized approach. You can download the template and follow along as Kelsey and Lynne step through the template and discuss how to approach the use of each component part.
