

## **AQUIFER EDUCATOR CONNECTION PODCAST**

### **Episode 25: COMSEP and Aquifer: Collaborating for Excellence in Clinical Education**

**Guests:**

Melissa Held, M.D., Associate Professor of Pediatrics and Infectious Diseases and Associate Dean of Student Affairs at the University of Connecticut School of Medicine and Curriculum Lead, Aquifer Pediatrics.

Kirstin Nackers, M.D., Associate Professor of Pediatrics and Director of Pediatric Undergraduate Medical Education at University of Wisconsin-Madison and Senior Director and Editor-in-chief of Aquifer's Pediatrics Board.

**Host:**

Lynne Robins, PhD, Professor Emerita, Department of Biomedical Informatics and Medical Education, University of Washington School of Medicine, Seattle, WA.

**Description:** This episode discusses the longstanding and synergistic relationship between Aquifer and COMSEP. Educators from both groups have worked continuously to integrate their resources and ensure Aquifer Pediatrics comprehensively covers the COMSEP curriculum as it evolves. We'll share details of COMSEP's recent curriculum mapping project as an example of COMSEP and Aquifer's processes to create trustworthy curricula and teaching resources.
