

AQUIFER[®]

*Your trusted source
for clinical learning*

Student Orientation

Welcome to Aquifer

Aquifer's virtual patient cases are designed to:

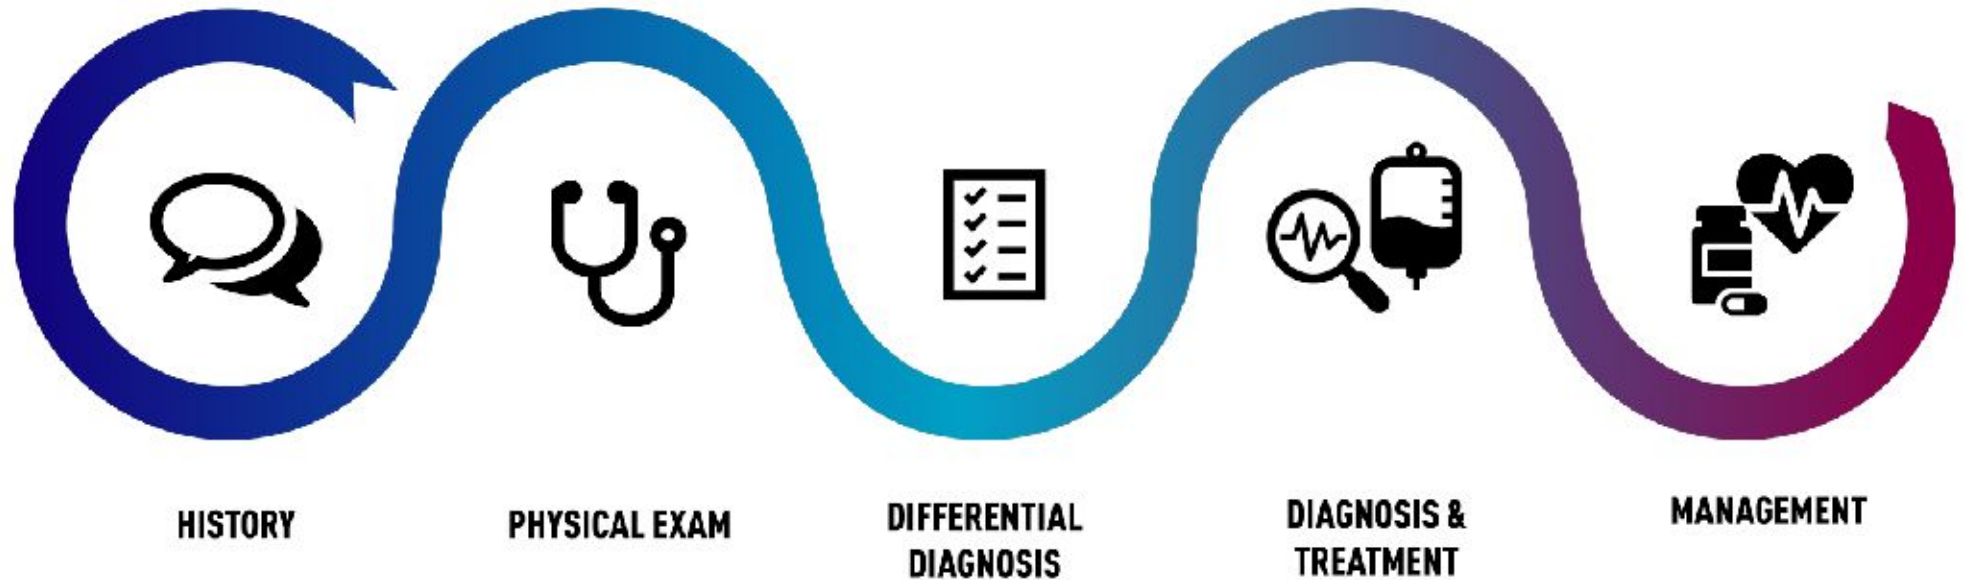

- ✓ build **clinical decision-making skills**
- ✓ provide **deep, realistic patient scenarios**

Aquifer cases give you:

A walk through the process of
a **complete patient encounter**

Aquifer cases give you:

- ✓ A safe space to practice clinical decision-making skills

- ✓ Access to patients and bread and butter conditions you don't want to miss

- ✓ Complete coverage of national medical student curricula

Make the Most of Aquifer's Content

Find Cases with the Searchable Patient Library

Find cases to fill in for conditions you didn't get to see, or cases you want to review.

Build Your Own To Do List

Add cases of your choosing to an embedded to do list to review at your own pace along with your assigned cases.

Shine in Clinic, in Your Coursework and On Your Exams

Our realistic rich, deep cases will provide you all the background you need to stand out on rounds and succeed in your courses and exams

Tips for Using Aquifer Cases

Plan enough time for a thorough review.

Cases are deep and can take **15 - 45 minutes to complete**. Plan ahead using the recommended time listed for each case as a guide

Don't miss the Case Summaries at the end of each case.

Perfect to save or print as a study guide.

Discussing cases makes connections.

Plan to discuss cases with a friend or study group to maximize your learning—if you aren't already covering them in class.

Calibrate Formative Assessments

Progress Testing Helps Identify Knowledge Gaps.

If your program assigns Aquifer Calibrate progress tests for Family Medicine, Internal Medicine, Pediatrics or Radiology, you'll have a leg up to identify your knowledge gaps.

Track Your Progress

Up to 2 assessments per course can be assigned, so you can track your progress and adjust your learning plan over time.

Inform Efficient Study Plans

Scan your Calibrate reports for gaps and trends to focus your time on the cases that matter most for you.

Generate Productive Conversations with Faculty

Share your results with a coach or faculty member to inform meaningful feedback on your progress.

Student Story Videos
